

VANTAGE has been working with ASACO pvt ltd as our Financial and management consultants for the last three years . I am pleased to state that in all these years of working with them, we have found the VANTAGE team to be totally professional and with a sound knowledge of crucial subjects like Financial management, accounting principles and HR management. Their analyses of complex Financial situations which the company had been experiencing, and spot on advises have been of immense value in successfully steering our company onto a path of stable and solid management of debt and working capital management, financial accounting procedures and HR. VANTAGE has played a crucial role in all above aspects and also in the overall Business planning and Business restructuring activities of ASACO in the last three years. Most of all, i admire their total and dedicated *hands on* involvement in the affairs of the company and quick grasp of even technical nuances involved in the company's activities which enables VANTAGE to present us with practical and lucid solutions to seemingly difficult issues. I must also congratulate them on their excellent relationship skills and ability to communicate clearly and wind the confidence of the complete senior management team of the company. On behalf of ASACO, i look forward to working closely with VANTAGE in our present and future endeavours and consider them very much part of all our crucial management decisions.

Ajit Mohandas
Jt. managing Director

ASACO Pvt Ltd.
