

Vantage Management Consulting has been the Accounting Firm and Advisors of Redex, France's Branch office in India, since its establishment in July, 2010. With their knowledge and forthright suggestions, we have been able to implement Accounting procedures and systems within a very short period of starting our Indian branch office.

We selected Vantage as our accounting firm based on their professional approach along with their willingness to help us in implementing their recommendations. Vantage team has been understanding and practical and has been a trusted advisor by leading us through any complexities we might have encountered.

We feel strongly that through their professional approach and their strong knowledge of accountings procedures/systems and wide experience they can add great value to start-up or existing business.

We highly recommend Vantage Management Consulting to any company looking for a trusted Accounting firm and advisor.

Thanking you,

For **REDEX OF INDIA**
